

GUIDE TO THE RIGHT WIPE

ENGINEERED FOR THE TOUGHEST DEMANDS OF AUTOMOTIVE REFINISHING

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you need. Our unique hydroentangling process uses thousands of high-pressure, needle-like jets of water to entangle the fibers into a Sontara® fabric that's strong and virtually lint free. Reducing sources of lint or loose fibers can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

	Departments						Tasks	Recommended
	Prep	Body	Paint	Detail	Mech.I	F. office		
Surface Prep	*	*	*				General surface preparation - Applying solvent or cleaners - Wiping the surface dry	Degreasing Cloth
		*	*				Tacking prior to paint - Heavy residue	Primary Tack Cloth
Base Coat			*				Tacking between coats or with water-based paints	Final Tack Cloth
Top Coat				*			Polishing / detailing - hand polishing	Polish Cloth
Cleanup	*	*			*		Heavy duty jobs - mechanical/engine work - industrial work	Maintenance Wipe
	*	*	*			*	Light duty jobs - wiping off spray gun - cleaning up spills - cleaning glass, mirrors	Clean- up Wipe

PRODUCT OFFERING

DEGREASING CLOTH

- Large and super-absorbent
- Virtually lint-free
- Offers excellent strength, wet or dry
- No added binders or glue that can dissolve on the surface to contaminate your work

POLISH CLOTH

- Extra-soft – safe for your finish
- Traps polish for a brilliant shine
- No streak-producing additives
- Excellent for detailing chrome and interiors

PRIMARY TACK CLOTH

- Heavy “tackifier” – picks up and traps high levels of dirt and sanding residue
- Boosts productivity - peels apart easily so you can start working fast

FINAL TACK CLOTH

- Light “tackifier” –removes dust and overspray between coats
- Virtually no fraying or linting
- Users report it reduces static buildup on plastic parts and other surfaces

CLEAN-UP WIPE / EC® GREEN

- Tough and durable for multiple reuses
- Works fast for excellent wipe-dry
- Made of 100% cellulosic and renewable raw materials
- Cost-effective – users find they need fewer wipes for each cleanup

MAINTENANCE WIPE / EC® BLUE

- Super strong and absorbent
- Stands up against dirt and grease
- Great for mechanical work and engine repair
- A disposable alternative to laundered shop towels

Sontara®

SURFACE PREPARATION SYSTEM
AUTOMOTIVE WIPES

1. Maintenance
Sontara EC® Blue
Supports the repairing of a car and it is a perfect tool to absorb dirt, oil and grease.

6. Final cleaning station
Sontara EC® Green
Used for all purpose cleaning and detailing inside and outside the car including windows and mirrors.

2. Sanding
Sontara® Primary tack cloth
Contains a tackifier that removes dirt and painting booth dust prior to the base coat, reducing static charge.

3. Solvent application
Sontara® Degreasing cloth
Manufactured without any glue/binders that can contaminate your work. Used for applying solvents and completely drying solvents.

4. Painting booth
Sontara® Final tack cloth
Contains a light tackifier that removes the contamination of dust and overspray between coats to reduce static charge.

5. Refinishing
Sontara® Polish cloth
Is extra soft and safe for your finish. It removes and buffs polish for a brilliant shine at the end.
