

Sontara®

AUTOMOTIVE REFINISHING

1000004273

Solvent Wash & Dry Cloth

- Large and super-absorbent.
- Virtually lint-free.
- Offers excellent strength, wet or dry.
- No added binders or glue that can dissolve on the surface to contaminate your work.

ADVANTAGES

- Safe in Use
- Complete System
- Low Cost in Use
- Low Lint
- Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMMENDED APPLICATIONS

- Surface preparation for the cleaning and degreasing.
- Cleaning with solvents and water based cleaners.
- Wiping the surface wet / dry.
- Removing adhesives sealants, resins, dust, grease and fingerprint from critical surfaces.
