

Sontara®

AUTOMOTIVE REFINISHING

1000001965

First Tack Cloth

- Heavy "tackifier"-picks up and traps high levels of dirt and sanding residue.
- Boosts Productivity-peels apart easily so you can start working fast.

ADVANTAGES

- Safe in Use
- Complete System
- Low Cost in Use
- Low Lint
- Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMENDED APPLICATIONS

- Removing heavy residues – picking up loose debris.
- Wiping surfaces to remove dust from sanding.
- Prepping a surface before sealing.
- Application where a heavy tackifier is needed.
