

Sontara®

AUTOMOTIVE REFINISHING

1000003775

Polish Cloth

- Extra-soft-safe for your finish.
- Traps polish for a brilliant shine.
- No streak-producing additives.
- Excellent for detailing chrome and interiors.

ADVANTAGES

- Safe in Use
- Complete System
- Low Cost in Use
- Low Lint
- Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMENDED APPLICATIONS

- Removes and buffs polish.
- Multi-use: developed for dressing, Polish, wax and sealant.
- Detailing chrome, interiors and exterior refinishing.
