

Sontara®

AUTOMOTIVE REFINISHING

1000001907

Primary Tack Cloth

- Heavy "tackifier"-picks up and traps high levels of dirt and sanding residue.
- Boosts productivity - peels apart easily so you can start working fast.

ADVANTAGES

Safe in Use

Complete System

Low Cost in Use

Low Lint

Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMENDED APPLICATIONS

- Removing medium residues – picking up loose debris.
- Wiping surfaces to remove dust from sanding.
- Prepping a surface before sealing and prior to base coat.
- Application where a medium tackifier is needed.

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000001907	Primary Tack Cloth	Green, 1/4 folded	305 x 457 mm	144 wipes poly bag/box	144	45
